

Dr. Windler has retired as of 12/21/21, after over 40 years of practice. Austin Sports Medicine is proud to have been founded on roots of such compassion and genuine care. Dr. Windler's impact goes far beyond the walls of this clinic. But these clinic walls were built on his hard work, exceptional patient care, and family oriented practice. We are grateful for his leadership, drive, commitment to patients, and a legacy that ASM will continue to uphold.

If you are a former patient of Dr. Windler, please call our office so we may help you transfer to a new physician.
